# PRE-CERCLIS SCREENING ASSESSMENT CHECKLIST/DECISION FORM

This checklist can assist the investigator during the Pre-CERCLIS screening. It will be used to determine whether further steps in the site investigation process are required under CERCLA. Use additional sheets, if necessary.

**Checklist Preparer:** Nabil Seif/EQA 9/11/2002  
(Name/Title) (Date)  
P.O Box 30426, Lansing, MI 48909 517-347-9987  
(Address) (Phone)  
SEIFN@michigan.gov  
(E-mail Address)

**Site Name:** Wolverine White Metals

**Previous Names (if any):** Same

**Site Location:** 3421 Gibson  
(Street)

Detroit MI 48201  
(City) (State) (Zip)

**Latitude:** N/A **Longitude:** N/A

Complete the following checklist. If "yes" is marked, please explain below.

	Yes	NO
1. Does the site already appear in CERCLIS?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2. Is the release from products that are part of the structure of, and result in exposure within, residential buildings or businesses or community structure?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3. Does the site consist of a release of a naturally occurring substance in the unaltered form, or altered solely through naturally occurring processes or phenomena, from a location where it is naturally found?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4. Is the release into a public or private drinking water supply due to deterioration of the system through ordinary use?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
5. Is some other program actively involved with the site (i.e., another Federal, State, or Tribal program)?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
6. Are the hazardous substances potentially released at the site regulated under a statutory exclusion (i.e., petroleum, natural gas, natural gas liquids, synthetic gas usable for fuel, normal application of fertilizer, release located in a workplace, naturally occurring or regulated by the NRC, UMTRCA, or OSHA)?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
7. Are hazardous substances potentially released at the site excluded by policy considerations (e.g., deferral to RCRA Corrective Action)?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
8. Is there sufficient documentation that clearly demonstrate that there is no potential for a release that could cause adverse environmental or human health impacts (e.g., comprehensive remedial investigation equivalent data showing no release above ARARs, completed removal action, documentation showing that no hazardous substance release have occurred, EPA approved risk assessment completed)?	<input type="checkbox"/>	<input checked="" type="checkbox"/>

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There is no text or other markings on the paper.

**SITE DETERMINATION:**

- ☐ Enter the site into CERCLIS. Further assessment is recommended (explain below)
- ☒ The site is not recommended for placement into CERCLIS (explain below)

## **PRE-CERCLIS DECISION**

The Wolverine White Metals (WWM) address is at 3421 Gibson Street, Detroit, Wayne County, Michigan.

On July 9, 2002, the Michigan Department of Environmental Quality, Environmental Response Division, Superfund Section, Pre-Remedial Group conducted a site visit to WWM facility but was unable to locate the facility at this address.

It appeared that the facility had been demolished or redeveloped as a part of the Michigan Consolidated Gas Company, Noble Street Complex. The site is completely covered with buildings and paved parking lots.

Based on the finding of this investigation and the fact that this site is not a National Priorities List caliber, the site is not recommended for placement into the CERCLIS.
